

2018 Offerings at your Clubs

I believe that learning how to play golf is more than learning how to hit a golf ball. It's also about how to confidently deal with a variety of situations before you encounter them on the golf course.

Fear of embarrassment is the number one reason many hesitate to play golf. Let me help you make sure that you are prepared to be on the course whether playing casually with friends, in leagues or in a corporate event. I want you to **LOVE** golf as much as I do and have fun learning about how to play this wonderful game.
